Population Health **360**

A COMPREHENSIVE LOOK

Join other health care leaders from the Northeast region for this unique, invitation-only summit that brings senior executives together for a day of open dialogue and discussion in an intimate, collaborative forum.

Discover and share how population health management will impact the strategic and financial direction of your organization.

This conference convenes health system executives and leaders in policy and operations to:

- ▶ Collaborate with peers and share best practices for transforming organizations to succeed in the value-based environment.
- ▶ Gain strategic insight on the shifting political landscape from leading state health policy officials.
- ▶ Discuss strategies for population health that meet the needs of value-based payment models and improve your bottom line.
- ▶ Participate in analytic reviews and national cases for assessing population health readiness and engaging and aligning your provider network.

This program has been developed and is presented locally by COPE Health Solutions. The American College of Healthcare Executives has awarded 1.5 ACHE Face-to-Face Education Credits to this program.

Featured Speakers & Panelists

Marna P. Borgstrom
Chief Executive Officer, Yale New Haven Health System and Yale New Haven Hospital

William T. Foley

Learn from Montefiore's experience as a pioneer in population health management. For more than two decades, Montefiore has taken financial risk for patients under value-based contracts.

- ▶ Montefiore currently manages over 400,000 lives through various value-based arrangements, which include over 210,000 full risk capitated lives with several health plans covering Medicare, Medicaid and commercial product lines.
- ▶ Montefiore is playing a leading role in New York State's Delivery System Reform Incentive Payment (DSRIP) program, the main mechanism by which New York is implementing its Medicaid Redesign Team (MRT) Waiver Amendment.
- ▶ The Montefiore ACO was an original Pioneer Model ACO and achieved savings for Medicare in each of the 5 years of the program. Medicare benefited by over \$78 million over five years, with quality scores that exceeded 95%. Montefiore is now responsible for managing the care, quality and outcomes of nearly 50,000 Medicare beneficiaries attributed to its Next Generation ACO.

About COPE Health Solutions and Montefiore CMO

COPE Health Solutions partners with our clients to help them achieve visionary, market relevant health solutions. We have deep expertise in all aspects of strategy, clinical integration, population health management, managed care solutions, financial modeling, care coordination, behavioral health integration, CMS demonstrations, technology assessment and implementation and workforce development. Our firm is known for working hand-in-hand with our clients on successful large-scale implementations of managed care and population health management strategies. We are the partner of choice for providers and payors across the United States who are committed to success in the evolving value-based payment environment and developing the diverse talent needed to fill future health care roles.

CMO, Montefiore Care Management, is a robust care management organization with 20 years of experience providing services to government health care programs and private health plans under value-based contracts. CMO administers comprehensive population-based care management services integrated across the continuum of care to assist providers, patients and caregivers in implementing treatment plans. Its approach is grounded in whole-person support that recognizes the critical importance of addressing the socio-economic determinants of health and reducing the fragmentation of the health and social services delivery systems. CMO's capabilities also include care management process engineering and QI; training; the design of value-based payment incentives, financial modeling, population health management technology assessment and implementation; and data analysis and reporting.
